Dear Sirs, Dear Madams,

We are contacting you today because we would like to draw your attention to

the International **BioDetectors 2007** conference which will be held in

Amsterdam on 10 and 11 October 2007.

The meeting will bring together key speakers involved at the forefront of the development of several BioDetector technologies.

The meeting will offer you to listen to international experts on BioDetectors, view posters and to follow-up with state of the art Lab Demonstrations!

The list of topics includes:

- **DIOXIN** and dioxin-like PCBs in food, feed, environment and human monitoring
- **REACH**: what are the options to method screening technologies?
- Sport **DOPING** and the impact on healthy food
- **WATER SAFEY?** How much endocrine disrupters can we accept?
- **EUROPEAN POLICY** on BioDetectors in the future
- **APPLICATIONS** of BioDetectors: Strengths and limitations
- **CLINICAL STUDIES** with BioDetectors
- **NEW CALUX** Battery for thyroids, estrogens, androgens or other hormones
- **LAB DEMO** of analytical approaches for BioDetectors

In our last meeting - the CALUX Exchange workshop 2006 - a large number of international participants and speakers have shown the "Global World of BioDetectors"!

You are welcome to present your projects and technologies either as poster or as presentation. Please inform us about your planned **poster before 28 September 2007. Please sign for participation before 5 October 2007.**

The charge for attending the workshop will be €200 excl. VAT, incl. lunch and refreshments. Please notice that the pre-registration is essential as places are limited and will be allocated on a strictly 1st come, 1st served basis. To pre-register, please email to info@bds.nl or dita.smit@bds.nl.

If you are interested, I would be more than glad to send you the final conference program (which will be ready by the September 2007).

Should you have any further questions, feel free to contact me either by email or phone.

Yours sincerely,

Prof.dr. Bram Brouwer
CEO

Dr. Peter Behnisch
